The Press — Writing Articles

How journalism works — the article editor, adding images and tables, newspapers and newsrooms, views and trending, weekly awards and the Official Gazette.

 Updated 2026-09-14

Why write?

The press is how the world learns what happened — wars, elections, market plays, scandals. It is also a competition: articles count **unique views** and reactions, the front page ranks by what's trending, and every week the top author and the top paper each win **100 gold** and a spot in the hall of fame. The day's best story becomes **Today's Headline** on every citizen's dashboard.

The editor

Articles are Markdown with a toolbar: **bold**, *italic*, headings, lists, quotes and tables. Use Preview (or the

1. Upload your image to one of the supported sites: **Hizliresim**, **PostImages** or **ImgBB** (the toolbar's image dialog links them).
2. Copy the **direct image link** (it usually ends in `.png` or `.jpg`).
3. Paste it into the image dialog — it validates the link instantly — or write it by hand:

```
![A short caption](https://i.hizliresim.com/example.png)
```

Images from unsupported sites render as a placeholder card, never as a broken embed. You can also set a **cover image** for your article — it shows in listings, on your newspaper page and in the headline slot.

Alignment

Wrap any block in an alignment container (the toolbar buttons do this for you):

```
:::center
```

This paragraph – or an image, or a table – is centered.

```
:::
```

`:::right` and `:::justify` work the same way. Everything else stays left-aligned.

Tables

```
| Country | Treasury | Trend |  
| --- | --- | --- |  
| Turkey | 12,400g | ▲ |
```

Sharing an article (12 September 2026). Beside Like and Dislike on every article sits a **Share** button. It opens a box with the article's link selected and ready to copy. Paste that link into any in-game chat and it renders as a small preview card – title, newspaper, likes and comments – that opens the article.

Newspapers & newsrooms

Founding a newspaper costs **5 gold** (one per player). The owner can invite up to **5 editors** by player name; once an invite is accepted, the editor can publish under the paper's masthead – the article shows both the paper and the author. Editors can resign; the owner can dismiss.

Subscribers get a notification whenever the paper publishes.

The Official Gazette

The **President or the Interior Minister** can designate one newspaper – owned by a citizen of the state – as the country's **Official Gazette**. The paper carries a golden ribbon on its masthead and appears on the country profile next to the cabinet. No mechanical bonus: pure, very visible prestige.
