BOOK GETTING STARTED

DAILY SYSTEMS — REWARDS, MISSIONS, GOLDEN HOURS & PREMIUM

The daily supply drop, missions, achievements, referrals, energy drinks, the daily ×2 window, Auto Mode, and exactly what Premium does (and doesn't) buy.

UPDATED 2026-10-10

THE DAILY SUPPLY DROP

Once per UTC day you can claim the **supply drop**: the crate in the header, or **Claim** on the dashboard's clock. It pays **10 XP** and, with Premium, **20 gold + 100 local currency** — without Premium, **10 gold + 50 local currency**. The cash comes in the currency of your citizenship (US dollars if you are stateless). A new drop is ready at **00:00 UTC**. The real money is still made working, trading and fighting.

DAILY MISSIONS

Every day has three missions, shown on the dashboard.

Spend energy is always one of them: spend **five full bars** of energy on work shifts or war strikes. The target is 5 × your maximum energy, frozen at the start of your day (your first visit or action after 00:00 UTC), and Auto Mode's shifts and strikes count too.

The other two rotate from a pool of eight:

MISSION	TARGET
Do a training	start one — or have one already running
Eat your daily bread	your whole daily ration: 10, or 20 with Premium

MISSION	TARGET
Make market purchases	10 purchases, local or global market
Sell from your listings	30 units sold, local or global market
Make an exchange on the FX market	1 — taking an order, having yours taken, or trading with your state's treasury order all count
React to articles	5 different articles
Write chat messages	5 lines in the global, language or party room
Refill with energy drinks	3 refills

The rotation runs in four-day cycles: each of the eight comes up once per cycle, and the same mission never comes two days in a row. If your Premium runs out during the day, the bread target drops to the free ration of 10.

Each mission pays **10 XP** and **10 gold** when you claim it (**20 gold** with Premium), and claiming all three adds a bonus of **10 gold** (**20** with Premium) — a full day is **40 gold**, or **80 gold** with Premium. Premium counts at the moment you claim. Only today's missions can be claimed: whatever is unclaimed at 00:00 UTC is gone. The targets are set so a day takes several visits, not one.

ACHIEVEMENTS

One-time gold ladders over things you were doing anyway. They live on the **Achievements** page in the Home menu; claim each milestone there once it unlocks. Achievements pay gold only, no XP.

LADDER	MILESTONES	GOLD PER MILESTONE
Level	5 · 10 · 20 · 35 · 50	10 · 25 · 50 · 100 · 250
Front strikes	1 · 25 · 100 · 500 · 2,000	10 · 25 · 50 · 100 · 250
Laws proposed	1 · 10 · 50	10 · 25 · 100
Recruits qualified	1 · 5 · 25	10 · 25 · 100
Purchases made	1 · 25 · 250	10 · 25 · 100

Every strike counts — at war or in a rebellion, on either side. A law counts when you propose it, passed or not. A purchase counts on your local market and on the global one. All five ladders together pay **1,275 gold**.

REFERRALS

Your invite code and share link are on the **Referrals** page in the gear menu. A newcomer who signs up with any valid code starts with **+50 gold**. A recruit **qualifies** once they finish basic training — the first eight steps of the tutorial, with its reward claimed; a recruit who skipped the tutorial never qualifies. The page lists everyone who joined with your code, qualified or still in training.

Your milestones are paid automatically the moment your qualified count reaches them:

QUALIFIED RECRUITS	REWARD
1	50 gold
2	100 gold
3	1 week of Premium
5	50 gold + 2 weeks of Premium
10	100 gold + 1 month of Premium
25	300 gold + 3 months of Premium
50	1,000 gold + 6 months of Premium

Premium from a milestone is added to any Premium you already have.

ENERGY DRINKS

Drinks are bought with gold — **0.10 gold each** — on the **Inventory** page (**Brew energy drinks**); they take no storage space and there is no limit to how many you hold. One use fills your **entire energy deficit** (1 drink = 1 energy, so a 60-point gap costs 60 drinks = 6 gold); if you hold fewer, it uses what you have. A **10-minute cooldown** separates uses, and a full bar refuses a drink. Bread is still the staple; drinks are the sprint button. See Energy & Work for both.

GOLDEN HOURS — 17:00–18:00 UTC, EVERY DAY

For one hour a day the world runs hot: **×2 XP** from work shifts and war strikes, and **×2 passive energy regeneration**. Fixed rewards (the supply drop, mission payouts) stay flat — the boost rewards active play. A glowing icon in the header counts the window down.

AUTO MODE (PREMIUM)

Auto Mode works or fights for you for **24 hours** at a time: repeated work shifts at your job, or war strikes on a front you stand at. Start it from the dashboard, the jobs board, your company or the war page. It has two modes: **Functional** acts only when your bar is full and never touches energy drinks; **Ruthless** drinks from your stock to keep acting. Only one session runs at a time, and it simply waits while your energy refills.

Auto Mode is a convenience: it calls the same work and strike actions you would click, so it never produces more than the same clicks made by hand. The full rules — what each mode does, and every reason a session stops — are on Shop & Premium.

WHAT PREMIUM BUYS

Premium is comfort, not power — the full list:

- **double daily rewards** — 20 gold a mission, a 20-gold bonus and a supply drop of 20 gold + 100 local, where a player without Premium gets half;
- **20 contracts a day** instead of 10;
- **20 bread a day** instead of 10 (more energy per day, not per shift);
- **–10% training time**, added to your other training cuts;
- an **extra convoy slot** on top of the ones your level opens (levels 25, 50 and 100) — with Premium, a level-100 player runs all four field structures at once;
- **Auto Mode** sessions (above);
- Premium's colour on your name and profile flair.

No Premium multiplier touches damage, production or prices. Premium comes from the shop, from referral milestones and from live-event rewards; anything in the shop can also be bought as a gift for another player. Plans, prices and gifting are on Shop & Premium.
